Review the Roster Grade, Grade Reason and Date of Last Academic Activity to verify accurate import of the Grade Roster from Canvas.

Grade Reason and Date of Last Academic Activity

Grades of Unsatisfactory “U” or Failing “F” the **Grade Reason** (Completed the Term, Never Attended, and Stopped Attending) will be **imported based** on the **student's last academic activity recorded in the Canvas Gradebook**. If the date or column for the last academic activity does not appear in the Canvas Gradebook, the instructor will be prompted to manually enter the grade reason and, if applicable, the date the student stopped attending.

Frequently Asked Questions

What is the difference between the Final Grade column and the Total Grade column in Canvas? The **Total Grade** column only represents grades entered and does not take into account assignments left ungraded. If a student receives a zero for an assignment, a zero must be entered to calculate an accurate grade average. If a student was excused from an assignment, mark excused and the Canvas gradebook will take this into account without adding a zero.

The **Final Grade** column represents the assigned letter grade using the grade scheme selected in Canvas.

Why is the grade imported from Canvas different than the grade displayed in myUH? The import process only imports the Final Grade column, not the Total Grade column. If there is a difference in the two grades, verify there is no missing data for the student in Canvas.

Why am I receiving the following message in the Import Summary? *Please set a grading scheme in Canvas for grades to be properly imported.*

This occurs if the grading scheme in Canvas is not enabled, verify the Canvas course has the grading scheme enabled.

How can I Automate the Date of Last Academic Activity in the Canvas Gradebook?

Login to: <https://ccs.casa.uh.edu>

Select H8 menu item within the Course menu to complete request, [instructions](#).

The screenshot shows the CCS (CASA Campus Services) interface. On the left is the CCS logo and 'CASA Campus Services'. In the center is a 'MAIN MENU' section. On the right are buttons for 'Main Menu', 'Change Course', 'Help', and 'Log Out'. Below these buttons, the user's session information is displayed: '2024FA MATH5397 — ccs-4', 'MAIN - Selected Topics in Mathematics — Session 1 — ID', and 'Thu Sep 26 15:30 2024'. Below the main menu, there is a 'GO' button followed by the text: 'H8. Automatically write the Last Date of Academic Activity (based on qualified Canvas or CCS activity) into the Canvas gradebook at the end of Final Exams.'

Why does the Import Summary list fewer grades import than on the grade roster?

The Import Summary may display fewer grades due to missing or incomplete data in Canvas. Verify that all student grades in the myUH grade roster are imported before saving import.

How do I update the roster grade, grade reason, or date of last academic activity after Canvas import?

Yes, you can update using the Change Grade Request button.
